

INTERTRAFFIC WORLD

**2025
Edition**

To be published
January 2025

Intertraffic World published annually is dedicated to the technologies and services that make up the transportation systems of today. *Intertraffic World* magazine is produced in a collaboration between the organisers of Intertraffic events and the publishers of *TTi* magazine. *Intertraffic World* is an in-depth, perfect-bound, highly informative magazine that is distributed to **over 50,000** engineers, specifiers and key decision makers worldwide, and in person at Intertraffic Global events.

As well as the print edition, *Intertraffic World 2025* will be distributed as an enhanced digital edition. This fully interactive, smart-device optimised interface provides a richer editorial experience through added audio and video content, as well as extra text and images in certain articles.

Like the show, *Intertraffic World* is divided into key transport disciplines:

- **Infrastructure** • **Traffic Management** • **Safety** • **Parking** • **Smart Mobility**

This unique publication builds on the technologies and concepts displayed at Intertraffic events, with highly focused articles and technical papers on the latest developments within traffic management, safety, infrastructure and parking. From vehicle detection, parking payment

machines and road restraint systems, through to connected vehicle systems and smart highways, *Intertraffic World* offers readers complete solutions for their next road development project, and is a must-read for any city planner, DOT or road traffic engineer.

Opportunities in *Intertraffic World*

Intertraffic World 2025 will be a detailed, fully illustrated publication written by the industry for the industry, kept for reference for 12 months and beyond. Selected suppliers will be invited to contribute a technical white paper and, in some instances, will be the subject of a major case study or interview. These in-depth features will be supported by independently commissioned papers from the experts operating the world's most innovative DOTs, parking facilities and highways agencies. Due to limited opportunities, all industry supplier editorial contributions will be supported by either a full-, half- or double-page advertisement that will be allocated on a first-come, first-served basis.

Prices from €1,950, with editorial opportunities included (editorial space allocated in addition to advertisement pages, as available)
