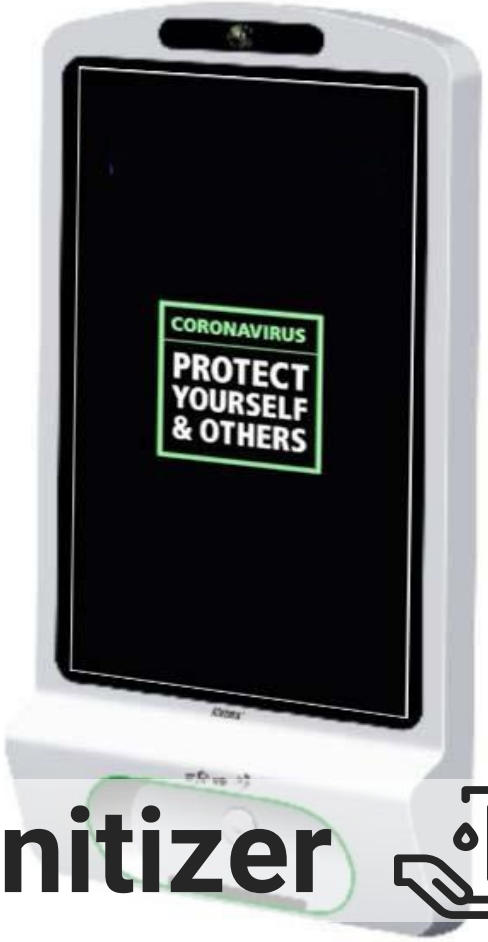
07. A Case of Desinfection
08. Transparent Divider
09. Temperature Screening, Crowd/Group Scan
10. NetMouse
11. Overflow via network / overflow via BlueJeans
12. Custom meeting room based on 1,5 meters grid
13. Location based fixed setup / interchangeable backdrop
14. ACS based fixed setup / interchangeable backdrop
15. Crowd Microphone

Disinfect hands before entering a room or venue:

- Interactive signage and cleaning dispencer in one
- Welcome message in look & feel of the event
- Content easy to adjust via a cloud based solution



1. Signage Display + Sanitizer

Participate in online meetings:

- For small groups (up to 5)
- Connection with all standard platforms (Zoom, Teams, BlueJeans, WebEx etc.)
- Possibility to upgrade to groups of 100 persons

2. Videoconferencing

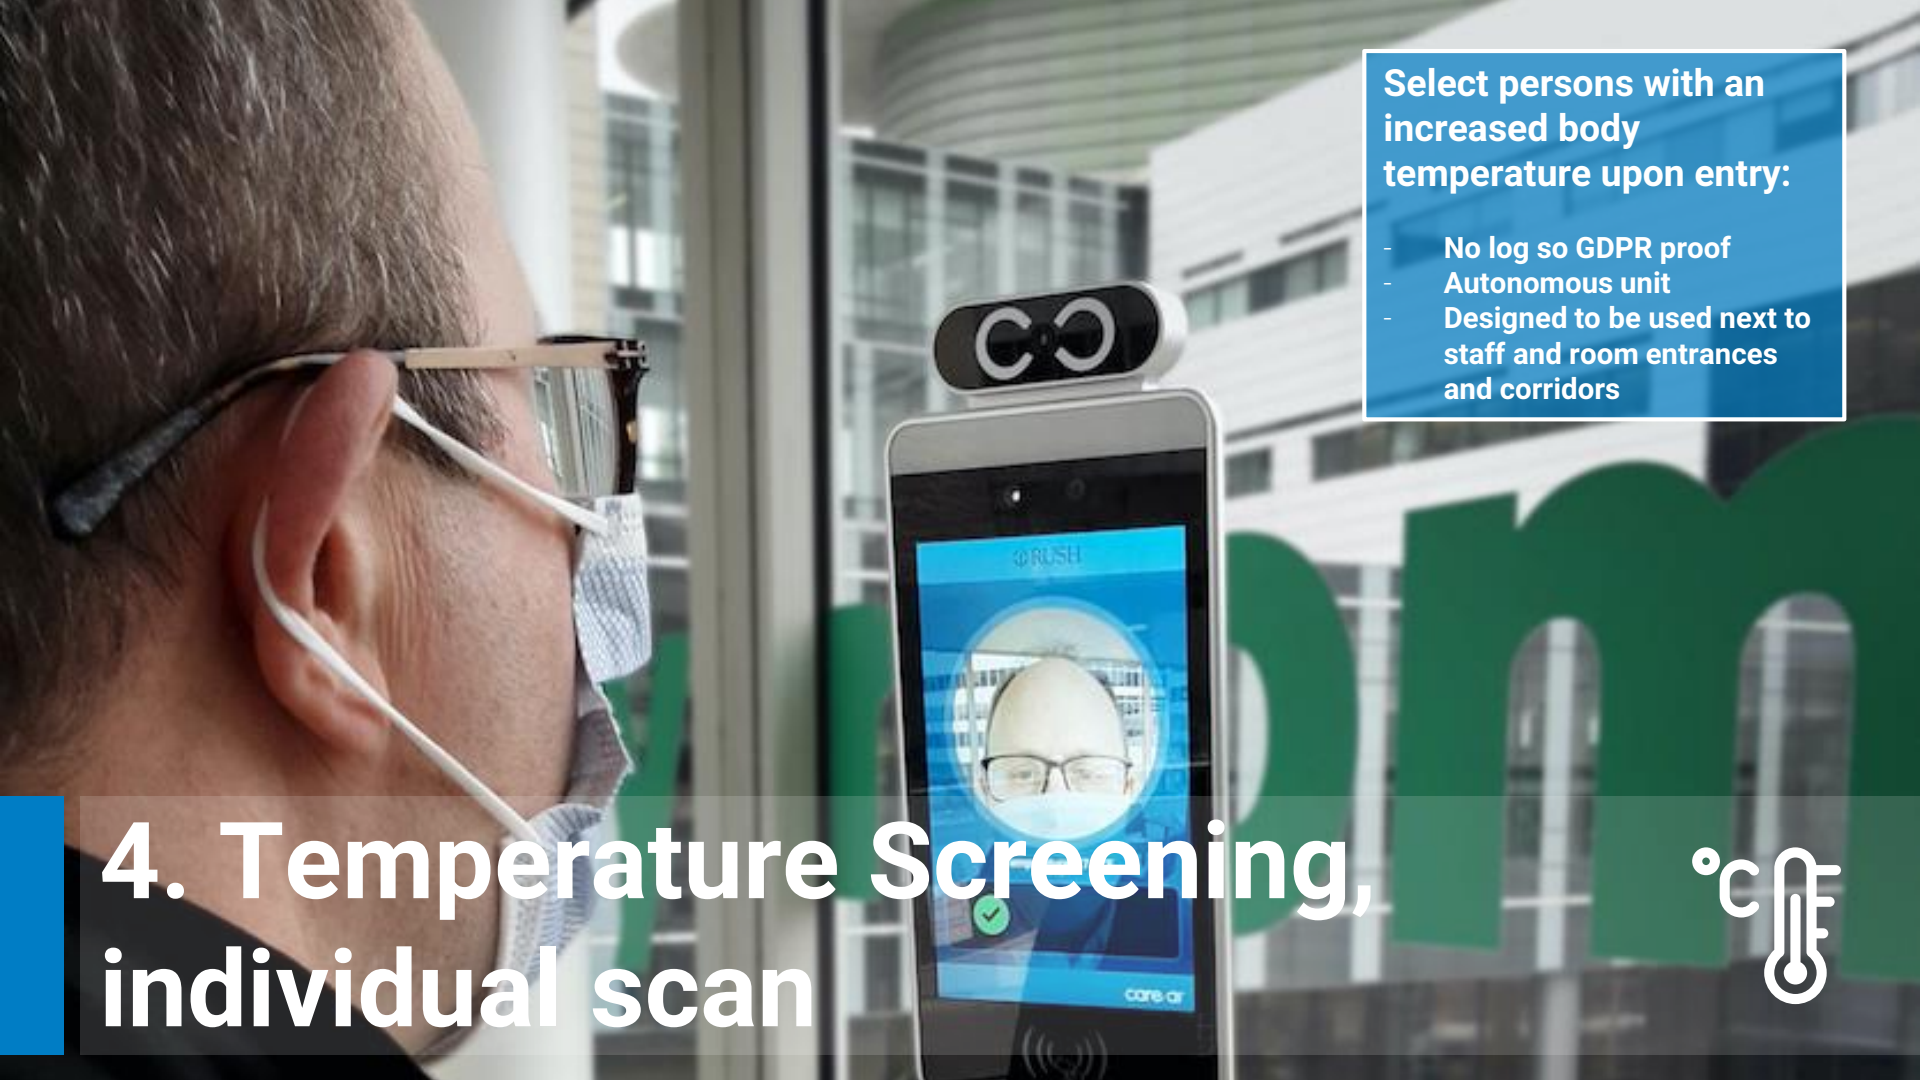
Participate in online meetings:

- Small to large groups
- Bring your own meeting (Zoom, Teams, WebEx etc.)
- ACS provides BlueJeans account
- Up to 100 devices simultaneously
- Possibility to upgrade to customized solutions

Organise online events:

- Guaranteed high quality of audio and video
- Different options in level of interactivity
- Dedicated landing page and/or link

3. Webinar / Digital Congress



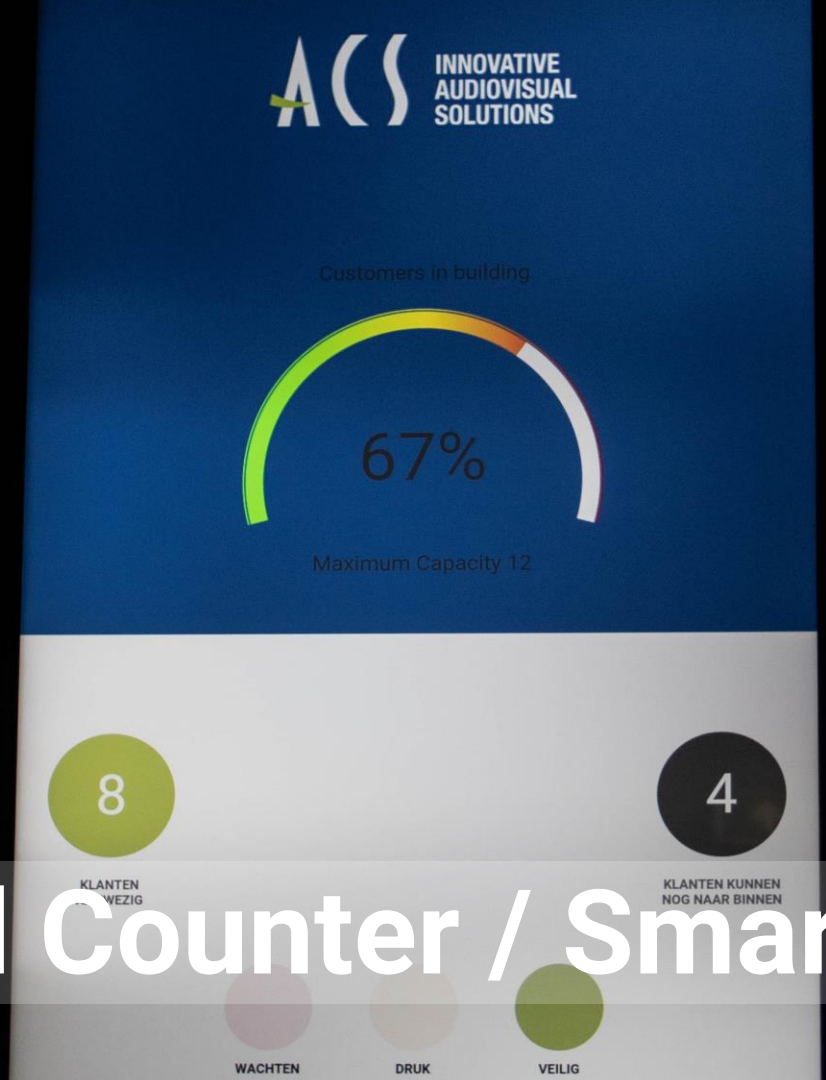
Select persons with an increased body temperature upon entry:

- No log so GDPR proof
- Autonomous unit
- Designed to be used next to staff and room entrances and corridors

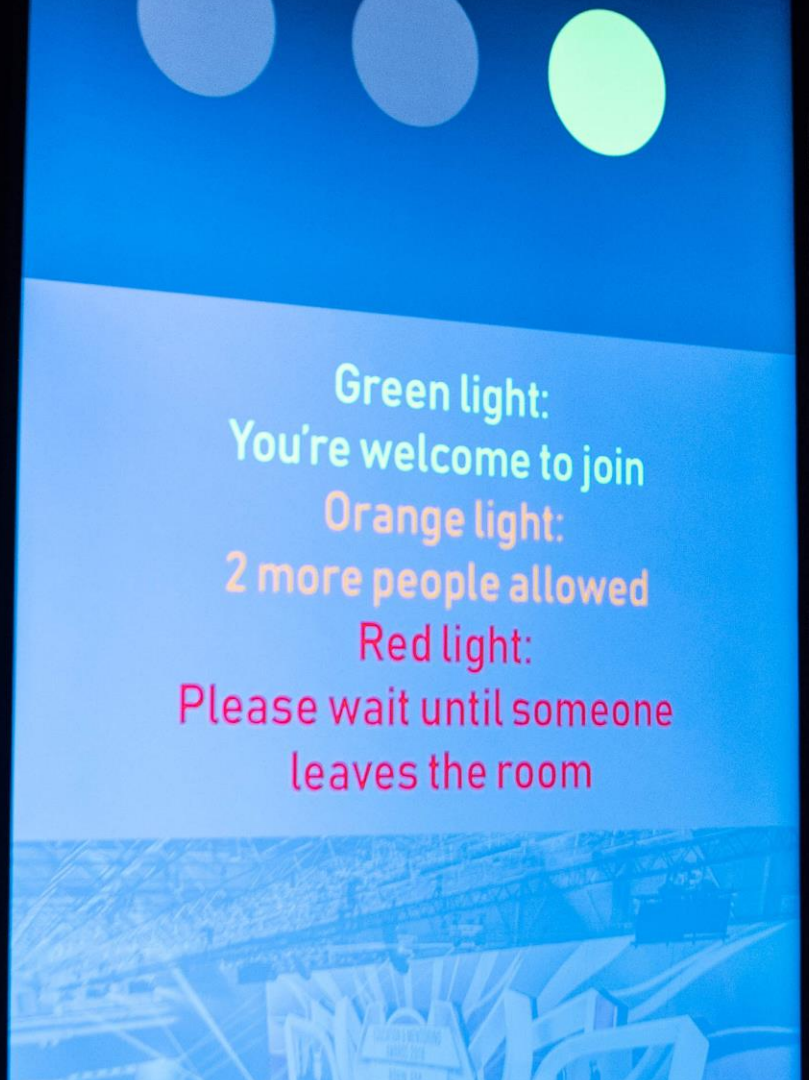
4. Temperature Screening, individual scan

Keep track of the maximum capacity and current occupation of the venue and/or room:

- Registers movements of people entering and leaving
- Shows the remaining capacity
- No need for an additional host at the entry



5. Crowd Counter / Smartcam



Green light:
You're welcome to join
Orange light:
2 more people allowed
Red light:
Please wait until someone
leaves the room

Purify the air in a room:

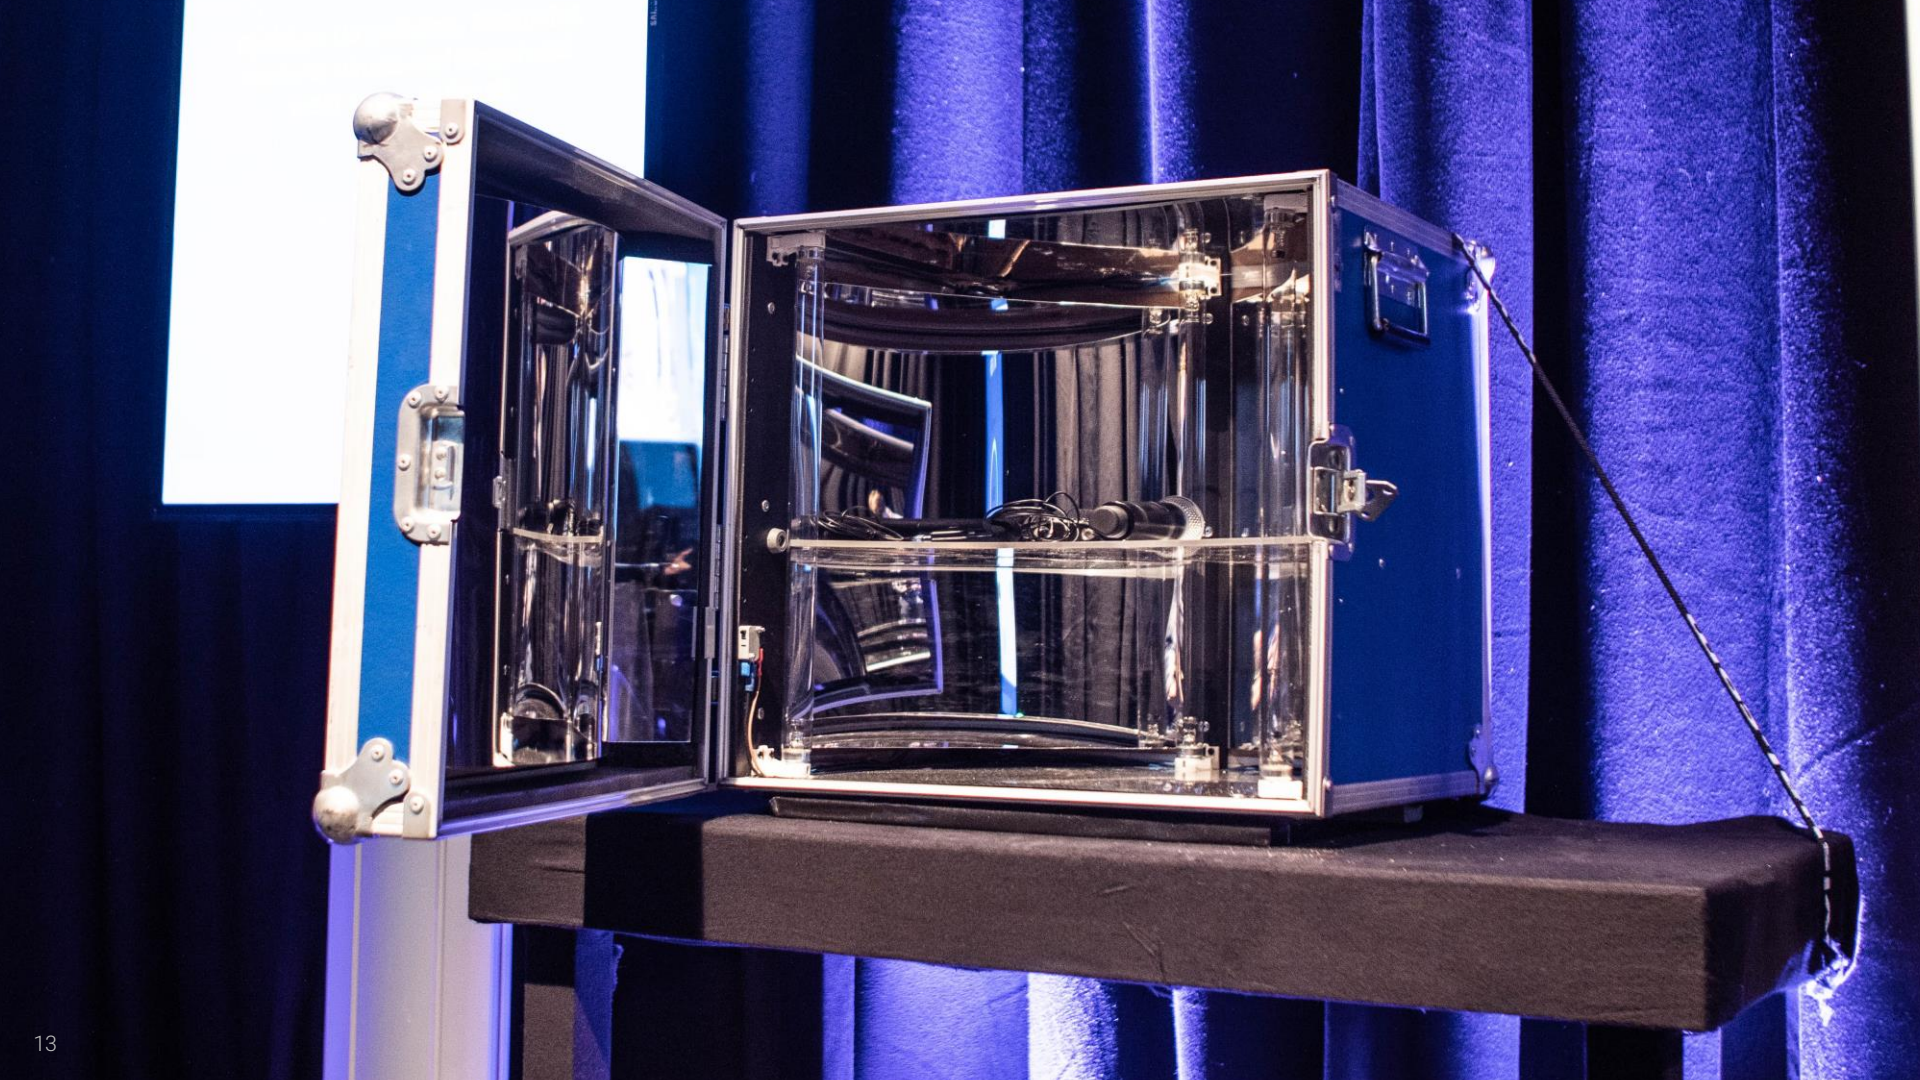
- Makes use of UVC light
- Operative out of sight
- Can be used continuously
- Mobile
- Scalable capacity

6. Air Purifier

Desinfect microphones and other equipment:

- Makes use of UVC Light
- Housed in a flight case
- Safe to use
- Almost immediate re-use of equipment possible

7. A Case Of Desinfection



Make transparent barriers to seperate visitor flows:

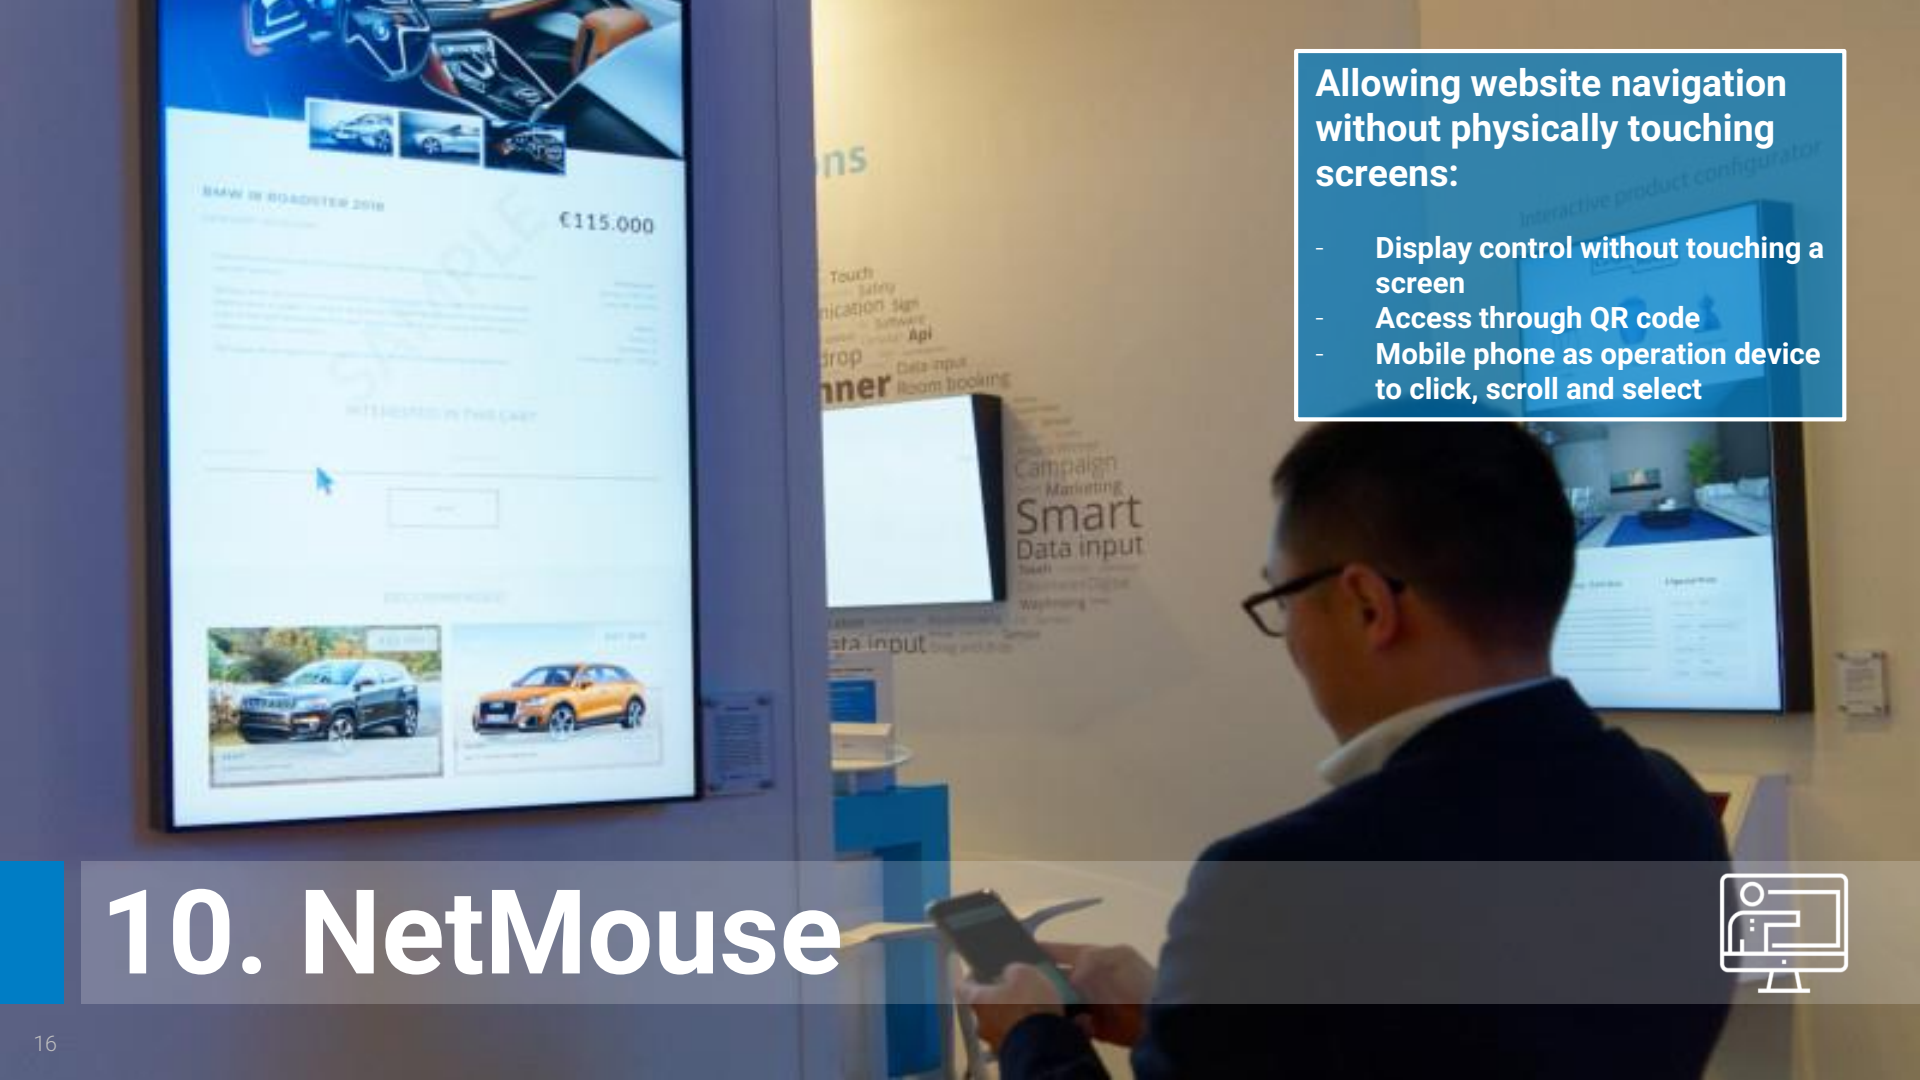
- Can be used if 1,5 meter distance cannot be guaranteed
- Semi-permanent or temporary solution
- Easily movable set-up

8. Transparant divider

Select persons with an increased body temperature upon entry

- Can measure crowds upon entry
- No log so GDPR proof

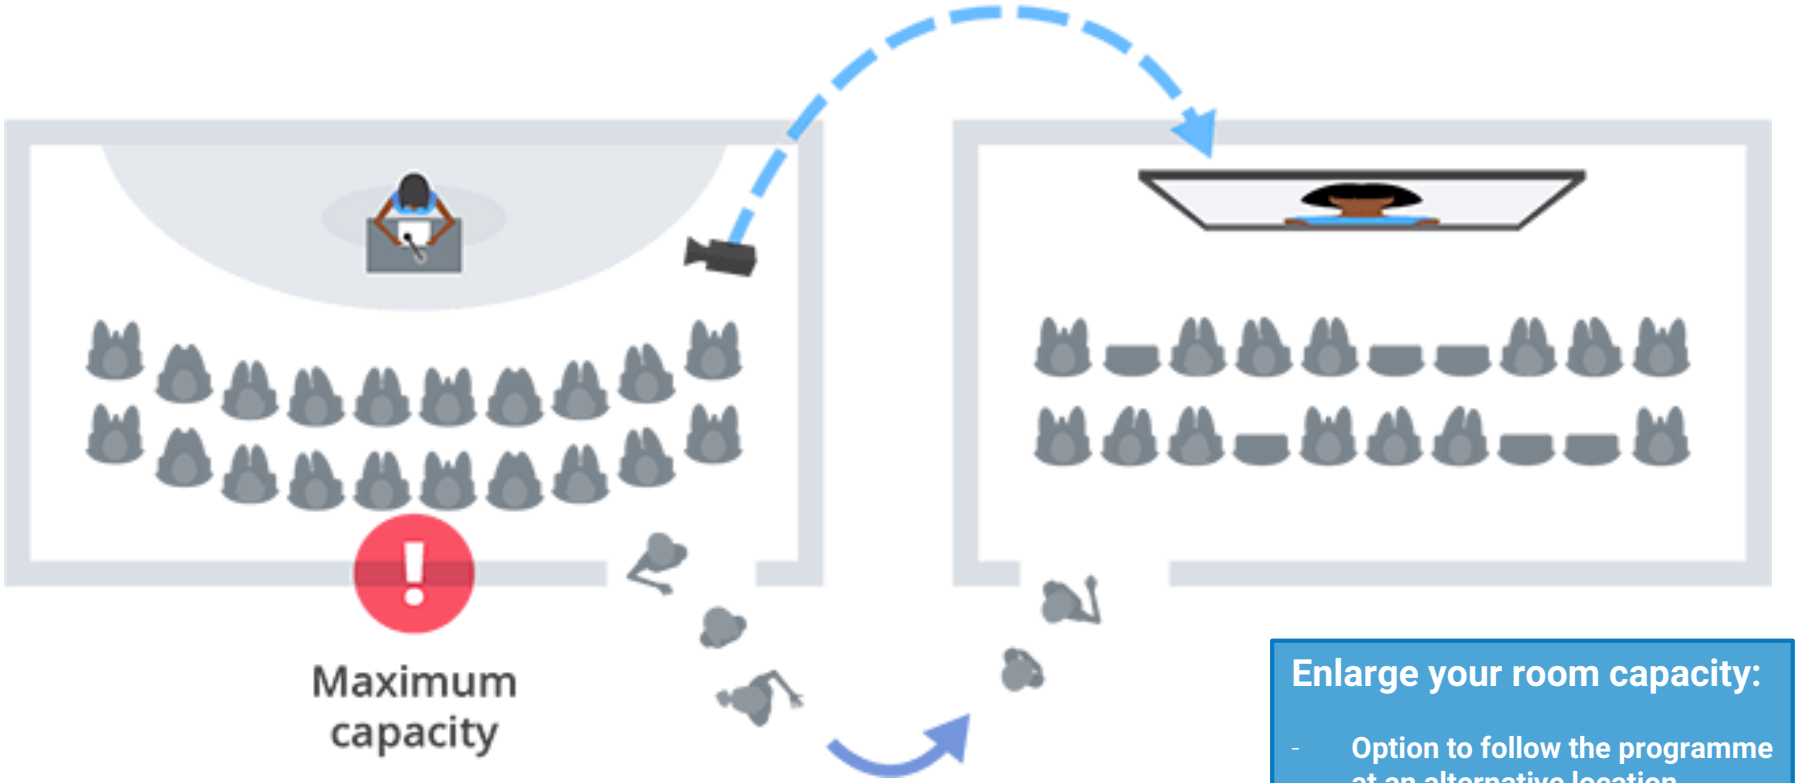
9. Temperature Screening, crowd/group scan



Allowing website navigation without physically touching screens:

- Display control without touching a screen
- Access through QR code
- Mobile phone as operation device to click, scroll and select

10. NetMouse



11. Overflow via network / overflow via BlueJeans

Enlarge your room capacity:

- Option to follow the programme at an alternative location
- Scalable to address a variable attendence
- Small to large solutions
- Audio reinforcement by means of PA system or single use headsets

12. Custom meeting room based on 1,5 meters grid

Set up a room in a 1,5 meter grid:

- **Digital furniture: lectern and chair table can display customized content**
- **Fully customizable in size/capacity**

Create your own recording environment:

- Available at any time
- Interchangeable backdrop
- Easy to switch to another look & feel
- Can be used by multiple customers

13. Location based fixed setup / interchangeable backdrop

15. Crowd Microphone
