

IT services App Download Zone

inspiring
people

We will ensure that your Wi-Fi network works well

Visitors to your event start downloading the event app as they arrive, placing pressure on the Wi-Fi network set up for you and requiring extra capacity. We can make the Wi-Fi more powerful by creating an **App Download Zone**.

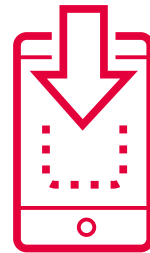

This solution ensures that your event Wi-Fi continues to function well while allowing people to download the event app quickly and seamlessly.

Your benefits

- > The App Download Zone relieves pressure on the entire Wi-Fi network
- > The Wi-Fi capacity is in line with demand

Good to know

- > The App Download Zone is only available as part of the event Wi-Fi
- > The App Download Zone cannot be moved during the event
- > Multiple App Download Zones are available
- > The Wi-Fi access points are placed on a tripod which is equipped with skirting
- > Place the App Download Zone at the location where your visitors arrive which is often at the entrance or in the registration zone.

- > The App Download Zone is most effective when you place signs that remind your visitors to download the event app
- > The App Download Zone is available from 08.00 AM on the final build-up day

We offer

- > The App Download Zone relieves pressure on the entire Wi-Fi network
- > The Wi-Fi capacity is in line with demand

Making life easy
