# IT services
Installation & support

Increase the success of your event with the right IT setup

To ensure all your IT facilities are connected and installed correctly, we recommend the use of an experienced IT installation and support team.

We provide
> An experienced and coordinated team
> Good service, support and continuity
> A complete IT team with a variety of expertise and support options:
   - ICT employee
   - ICT junior engineer
   - ICT senior engineer
   - Wi-Fi user support

Our IT installation and support team has the knowledge and experience to ensure the continuity of applications such as registration, internet, abstract handling, presentation management and streaming during your event.

Benefits
> No travel or accommodation costs
> Size of the IT team is flexible for peak or off-peak times
> Our IT employees and specialists are:
   - Experienced, skilled and professional
   - Familiar with the venue and our IT infrastructure
   - In direct contact with our IT department
   - Supportive of the IT project leader

Our installation and support team can be used during the IT setup, realisation and breakdown of your event. A collaboration with any preferred partners and suppliers you might have is always an option. A skilled team of problem-solvers with knowledge of the venue and IT infrastructure is sure to enhance the quality of your event's IT setup.

Making life easy
