SWARCO

The Better Way. Every Day.

We stand at the forefront, addressing the challenges of modern road infrastructure for future mobility.

Enabling real-time data exchange to make your travel experience safer, quicker, more convenient and environmentally sound.

3 Stages:

- **Prepare** the foundation for V2X communication and CCAM services
- **Scale** up from pilots to large scale deployments for complex urban and interurban environments
- **Orchestrate** various elements of the mobility ecosystem in real time

Foundation milestones

Where do we come from – where are we going

P

PREPARE

Commitment to innovations
15+ years of involvement in more than 100 CCAM R&D activities worldwide.

S

SCALE

Commercial projects in Germany, Netherlands, Italy, Czech Republic, Belgium, Ireland, United States, Mexico...

O

ORCHESTRATE

Leveraging on infrastructure & connected vehicles for advanced traffic management functions.

SWARCO MyCity Connect

At a glance

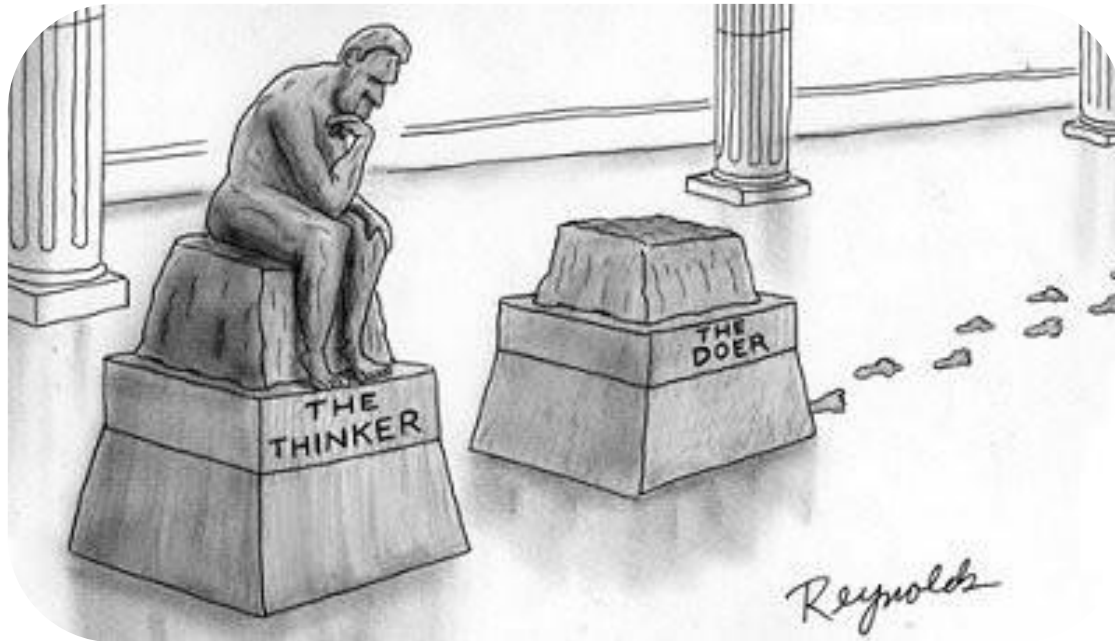

- Real-time data exchange between vehicles, infrastructure, and other road users for increasing road safety and efficiency
- Solid foundation for deployment of additional services
- Performance and impact monitoring
- Seamless integration with Traffic Management System
- State-of-the-Art IT principles & practices (Interoperability, Open Standards, Cybersecurity, Privacy)

Leveraging on infrastructure & connected vehicles for advanced traffic management functions.

Stop talking and start doing...

Our approach

We develop and deploy innovative CCAM solutions that support market growth, whilst providing education and training to advance the understanding and implementation of CCAM
