

DRIVING CONNECTIONS TO ADDRESS TODAY'S AND FUTURE REMANUFACTURING CHALLENGES

The worldwide focus on sustainability and the circular economy, in combination with the current large price increases of raw materials, require sustainable manufacturing methods. The remanufacturing industry has the knowledge and expertise to produce sustainably and improve the product life cycle. Rematec is the global platform for the remanufacturing industry that connects industry experts with knowledge institutes and governmental bodies.

Industry professionals and decision-makers from all corners of the world gather at Rematec Amsterdam to source innovations, gain new insights, and plan for future investments. The show floor offers an unparalleled business ecosystem and the perfect networking place. This is where remanufacturing professionals come together from all segments of the industry: to network, see innovative products, and learn from experts and key leaders on how to manage and grow their businesses.

Rematec offers an event solution for every objective and any budget. We are happy to discuss the optimal package for you. Choices range from standard stands, custom made designs, conference engagement and sponsorship opportunities or a tailor made proposal to meet your requirements.

5 key reasons to exhibit

- Rematec is the world's leading event where the supply chain of remanufacturing meets.
- Rematec is the only independent trade event dedicated to automotive remanufacturing worldwide.
- Rematec is a niche market where high level knowledge is shared.
- Rematec is a networking event for the Automotive industry, with expansion to Electric Vehicles and Battery Packs.
- Rematec is an unique combination between business, network and knowledge.

"Rematec is the place where the remanufacturing industry unites. If you're in the reman space you cannot miss Rematec. There is no other place where you meet so many potential clients and experts in such a short time. We received great leads and are looking forward to expanding our business."
Sebastian Bujnoch | Senior Business Development Manager, Encory

"Rematec has been the ideal context to create more connections, to catch new opportunities to expand the business with new product lines, new partners and core suppliers around the world. This is of fundamental importance for an OEM as Stellantis since Remanufacturing is a key pillar in our Circular Economy strategy and contributes to achieve industry-leading target of Carbon Net Zero by 2038."
Lucile Olivas Maynez | Circular Economy Commercial and Marketing development, SUSTAINera - Stellantis
