

Release of Standards of Zhongguancun Zhongke Highway Maintenance Industry Technology Innovation Alliance

Time: July 24, 2023, 10:00-12: 00

Venue: Opening Stage, H3

Language of Communication: CN

Serial number	Standard number	Standard name	The first reporting unit
1	T/GLYH001-2021	Technical guide for the application of reinforced anchored integral comb expansion joint for bridges	Hebei Wanyi Traffic Facilities Co., Ltd.
2	T/GLYH001-2022	Force measurement support of induction plates	Hengtong Huachuang (Beijing) Technology Co., Ltd.
3	T/GLYH002-2022	Plate load cell under anchor	Hengtong Huachuang (Beijing) Technology Co., Ltd.
4	T/GLYH003-2022	Highway wind-proof self-luminous anti-glare induction board	Xinjiang Tianrui Culture Technology Co., Ltd.
5	T/GLYH004-2022	Wedge conversion measurement and adjustment device for bridge bearing	Chengdu Jitong Road & Bridge Technology Co., Ltd.
6	T/GLYH005-2022	Polyurethane elastomer supporting device for bridge	Shaanxi Zhidao Zhiyuan Intelligent Technology Co., Ltd.
7	T/GLYH 001-2023	Anchorage modular expansion joint for steel plate bolts	Hebei Tongchuang Industry Technology Research Institute of Traffic Engineering Supporting Products
8	T/GLYH 002-2023	Reinforced reactive waterstop	Hebei Tongchuang Industry Technology Research Institute of Traffic Engineering Supporting Products
9	T/GLYH 003-2023	Integrated assembled composite waterproof board	Hengshui Zhongtiejian Earthwork Material Manufacturing Co., Ltd.
10	T/GLYH 004-2023	Anti-impact noise reduction expansion joint for highway bridge	Taizhou Hailing Hydraulic Machinery Co., Ltd.

11		Technical specifications for hot recycling of highway asphalt pavement in plant	Zhejiang Shunchang High-grade Highway Maintenance Co., Ltd.
12		Technical specification for cold-mixed and cold-laid ultra-thin wearing course	Shandong Dashan Road & Bridge Engineering Co., Ltd.
