

Smart Light Pole and Application Innovation Development Forum

Time: On the morning of July 25

Venue: H3 Open Stage, Shanghai World Expo Exhibition & Convention Center

Hosts: Shanghai Pudong Intelligent Lighting Association (SILA) and RAI Amsterdam

Organiser: SILA Smart City Committee

Language of communication: CN

Purpose: To better respond to the government's call for carbon peaking and neutrality and expand the role of smart light poles in promoting the development and construction of smart cities, this forum is held in the context of the new urban construction featuring informatization, digitalization and intelligence, as well as the promotion of the book *Classic Cases of Smart Light Poles*, in hope of providing better services concerning digital transformation, intelligent upgrading, integration and innovation for the high-quality development of cities.
